

Hot Off the Press! 5/10/15

Dear ECO Friends,

A powerful earthquake hit Nepal and northern India on April 25, killing more than seven thousand people and setting off a deadly avalanche on Mount Everest.

Are you wondering how you can help Nepal through a trusted organization? ECO has a partnership with World Renew, the relief and development arm of the Christian Reformed Church.

The 7.8 magnitude quake was the worst quake that Nepal has experienced in 81 years. Its tremors were felt as far away as Pakistan and deaths have been reported in Nepal, India, Bangladesh and China. In addition to the loss of life, the quake toppled buildings and caused enormous craters in roads. It also set off an avalanche on Mount Everest that swept through the base camp where more than 1,000 climbers were preparing to climb

While World Renew does not have staff members in Nepal, it has received reports from our colleagues at Christian Reformed World Missions that all of their staff members in the country are safe.

"After the big quake, everyone was gathering outside in open areas for hours and now people are finally starting to come back inside," said Troy Bierma, a CRWM staff member who added that some people are staying with his family in their home since they don't trust the structural integrity of their own houses. "It has been 6.5 hours since the quake and the earthquake alarm still buzzes every 30 minutes or so from aftershocks and tremors. We appreciate continued prayers for a quiet night and especially for those who have lost loved ones or seen extensive damage to their property."

Today, World Renew is meeting with its staff in Bangladesh as well as several Christian alliances and church organizations to determine how it can best respond to the great needs in Nepal and its neighboring countries.

"As Christians, we are called to shine God's love in times of pain," said Kenneth Kim, World Renew's Director of Disaster Response and Rehabilitation. "We are assessing possible responses with our partners and colleagues at this time. Given the devastation, we will likely provide both immediate assistance in terms of food, water and temporary shelter as well as longer term rehabilitation as those affected recover and rebuild in the aftermath."

Your prayers and financial gifts are urgently needed. Or mail your check made out to "World Renew" and marked "Nepal Earthquake 2015" to:

PJ Knueven testimony:

I have gone to this church ever since I was a baby. I've heard people talking about God. But I was never sure if He was real, because nothing proves He is real. And I can't see God. And I've never heard Him talk to me.

This winter I watched a video in Trail Life about the Star of Bethlehem. In the documentary the person proved that the Star of Bethlehem was a historical event. He used astronomy software to go back to when the Star of Bethlehem should have happened, and saw that it really did. And there were verses in the Bible that sort of happened in the sky. And so that proves the Bible is real.

Now I believe that God is real. So I'm getting baptized because I want to go to heaven. I want to live for God. My life will be different now that I'm getting baptized because I will be following God.

Join thousands as we pray
in the name of Jesus Christ. Together.
